```c
void *hello(void *arg)
{
  int i;
  for( i=0; i<20; i++ ){
    puts("Thread says hi!");
    sleep(1);
  }
  return NULL;
}

int main(void)
{
  pthread_t t;
  if( pthread_create(&t, NULL, hello, NULL) ){}

  if( pthread_join(t, NULL) ){}
  exit(0);
}
```
