```c
int main(int argc, char *argv[])
{
  DIR *dp;
  struct dirent *entry;

  if ( argc != 2 ) {}

  if ( (dp = opendir(argv[1])) == NULL ) {}

  while ( (entry = readdir(dp)) != NULL ){
    printf("%s\n", entry->d_name);
  }

  closedir(dp);

  return EXIT_SUCCESS;
}
```
